DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 25-36 are allowed.
3. The following is an examiner's statement of reasons for allowance: Prior art of record do not teach or suggest the claimed inspection methods for an optical printer apparatus, printer apparatus including an optical write-in head which applies light carrying image information to the photosensitive substance, the optical write-in head including an array light source having a plurality of dot light sources each selectively emitting the light corresponding to the image information and a lens array facing the array light source, wherein the lens array has a plurality of lens elements which corresponds to the plurality of dot light sources respectively. The methods allow the performance of the rod lens array to be evaluated without conducting printing testing actually. Accordingly, it is possible to simplify the inspection process itself for the apparatus after being assembled and also to know a fault of the rod lens array 24 itself after the assembly of the apparatus. It is, therefore, possible to check the stripe-like irregularity ascribed to the rod lens array 24 before the apparatus is assembled, thus improving the productivity.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled: "Comments on Statement of Reasons for Allowance."
